

YOUR COMMUNITY NEEDS

Seeking Everyday Heroes

Whether you're looking for a long-term career or just want to contribute to your local community, the health and social care sector is your opportunity to make a difference.

Settings such as residential care homes, general practice and the hospital are looking for people with the right values and good communication and organisational skills to fill a variety of roles.

A rewarding role could include:

- Supporting people with daily living activities e.g. eating, drinking, washing and dressing
- Supporting services to deliver administrative functions e.g. fielding incoming phone calls
- Helping to maintain safe and effective working environments e.g. restocking, cleaning and moving equipment.

You will receive all the training you need, with the opportunity to progress through vocational qualifications and continuing professional development. For an informal chat about how you could make a difference in health and social care, please contact us. **We really need you.**

If you are interested in a voluntary role as part of the Covid Support Volunteer Cohort, visit www.bluelightsbrigade.co.uk

If you are interested in a paid role, please contact local DWP Employment Consultant Joyce Davies: joyce.davies@dwp.gov.uk or 01472 622233.
